PHOTO+ADVENTURE – TRADE FAIR EVENT FOR PHOTOGRAPHY, TRAVEL AND THE OUTDOORS

With the combination of the three topics photography, travel and the outdoors, PHOTO+ADVENTURE is more than just a trade show, where customers are informed and buy products. The event character is emphasized by an extensive offer of workshops and seminars, outdoor adventures, live shoots, exhibitions and much more. All this is happening at an extraordinary location: the breathtaking industrial setting of the Landschaftspark's closed-down metallurgical plant.

Overall, the event invites customers to linger and offers opportunities for leisure activities. Most visitors stay more than four hours at PHOTO + ADVENTURE. For you, as an exhibitor, the trade fair event taking place on the second weekend of June is perfect to present your products and services to an enthusiastic, highly educated and financially strong audience.

„Photo+Adventure is a very special event for us. This year, we noticed a high attendance of ambitious hobby photographers who were particularly interested in our industry partners' new camera systems, such as Sony, Fujifilm and Canon. The Landschaftspark as a location itself is definitely worth a special praise as it serves as a photographic playground and thus as a magnet to photographers of all levels.“

Pia Janßen, Foto Leistschneider, Premium Partner

„Texas offers diverse landscapes, lively cities and surprising encounters. We are pleased to be able to showcase this diversity as Photo+Adventure's partner country. Photography, travel and the outdoors are the topics Photo+Adventure covers and thus, it is a perfect match with Texas and its magical places and to some extent still undiscovered nature. We had many great conversations on this two-day event and hope that we were able to inspire one or the other visitor to spend some time in the second largest state of the USA.“

Julia Stubenböck, Travel Texas, Partner Country 2018

1. DEVELOPMENT:

2. PHOTO+ADVENTURE – JUDGED ON A SCALE FROM 1 TO 6 (BEST TO WORST):

Activity	Score	Influence on overall score	Activity	Score	Influence on overall score
